“ Jackie was my grandmother, but not just any kind of grandmother. She was the greatest. I want her memory to be remembered as someone who gave her all to the ones she loved no matter what she was dealing with. No matter what she did or didn't have, she made sure to provide for her loved ones before herself. Pure selflessness. Heart of pure gold, and I will always love, remember and cherish everything that she ever did for me. She was and still is my guardian angel. I love you forever and always grandma ❤️
